Narmadapuram, Madhya Pradesh, India | +91 92442 75830 | priyahariyale11@gmail.com | GitHub: [Priiyaa56 \(Priya!!\)](#)

CAREER OBJECTIVE

Detail-oriented B.Tech Computer Science Engineering student with a working foundation in Java, JavaScript, HTML, and CSS, along with strong research, analytical, and fact-checking abilities. Seeking a remote or entry-level opportunity — technical, web development, or research/evaluation-based — to apply problem-solving skills and attention to detail while continuing to grow as a developer.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering

Jabalpur Engineering College, Jabalpur | 2024 – 2028 (Currently 3rd Year, 5th Semester)

SKILLS

Programming: Java (OOP fundamentals), Python (fundamentals), JavaScript, HTML, CSS

Research & Analysis: Internet Research, Information Verification, Fact-Checking, Basic AI Concepts

Core Strengths: Analytical & Critical Thinking, Attention to Detail, Independent Work, Fast Learning

Communication: English (Professional Working Proficiency), Hindi (Native/Fluent)

PROJECTS

FutureOS — Productivity Planner App | HTML, CSS, JavaScript

- Designed and built a planner-style web app for organizing tasks, goals, and daily schedules.
- Focused on clean UI/UX and structured layout to make daily planning intuitive.

Amazon Clone (Frontend) | HTML, CSS, JavaScript

- Recreated the Amazon homepage and product layout with a responsive, pixel-conscious frontend.
- Practiced structuring a large multi-section UI (navbar, product grid, cart layout) without a backend.

Weather App | HTML, CSS, JavaScript, Weather API

- Built a weather lookup app that fetches and displays real-time conditions using a live API.

Currency Converter App | HTML, CSS, JavaScript, Exchange Rate API

- Built a real-time currency converter integrating a live Exchange Rate API with dynamic currency selection.

Rock Paper Scissors Game | HTML, CSS, JavaScript

- Developed an interactive browser game with score tracking and randomized computer logic.

Tic Tac Toe Game | HTML, CSS, JavaScript

- Built a two-player game with full win/draw detection logic and restart functionality.
